EDUCATION

Ontario Tech University

Bachelor of Science (Honours) in Computer Science, specialization in Data Science

Oshawa, ON, Canada

Sept 2021 – April 2026

Relevant Coursework: Data Structures and Algorithms, Artificial Intelligence, Big Data Analytics, Computer Vision, Software Quality Assurance, Mobile Devices, Computer Graphics

TECHNICAL SKILLS

Programming: C/C++, Python, Java, JavaScript, R, SQL (Postgres), HTML/CSS, Assembly, Dart

Data & AI: Pandas, NumPy, Matplotlib, OpenCV, Exploratory Data Analysis, Data Visualization

UI/UX & Frontend: Figma (wireframing, prototyping), accessibility, user-centered design

Tools & Platforms: Git, Docker, Google Cloud Platform, VS Code, IntelliJ, PyCharm, Android Studio

PROJECTS

Data Analysis & Visualization Project — Python, Pandas, Matplotlib

- Cleaned and analyzed structured datasets to identify trends and patterns
- Built visualizations to communicate insights clearly to stakeholders
- Focused on accuracy, interpretability, and data-driven decision making

UI/UX Design Project — Figma

- Designed wireframes and high-fidelity prototypes for a user-focused application
- Applied accessibility and usability principles to improve user experience
- Iterated designs based on feedback and usability considerations

GitHub available for project review

EXPERIENCE

Die Cast — FCA Fiat Chrysler Automobiles

- Recorded production and downtime data to support process efficiency
- Followed technical manuals and safety documentation in an industrial environment
- Worked collaboratively in a fast-paced manufacturing setting with quality standards

April 2023 – Dec 2024

Toronto, ON

Merchandise Associate — Canada's Wonderland

- Handled financial transactions accurately in a high-volume environment
- Delivered clear communication and customer support while following safety protocols

May 2021 – December 2021

Vaughan, ON

VOLUNTEER, COMMUNITY, & EXTRACURRICULAR EXPERIENCE

Hindu Student Association — VP of Marketing

- Led marketing and outreach for campus-wide events
- Designed promotional materials and supported community engagement initiatives
- Collaborated with executive team members to plan and execute events

February 2024 – Present

Ontario Tech University

ADDITIONAL STRENGTHS

- Strong analytical and problem-solving skills
- Comfortable collaborating across technical and non-technical teams
- Curious, adaptable, and eager to learn emerging AI technologies
- Clear written and verbal communication skills
